

SCM12 – Solar Control Module

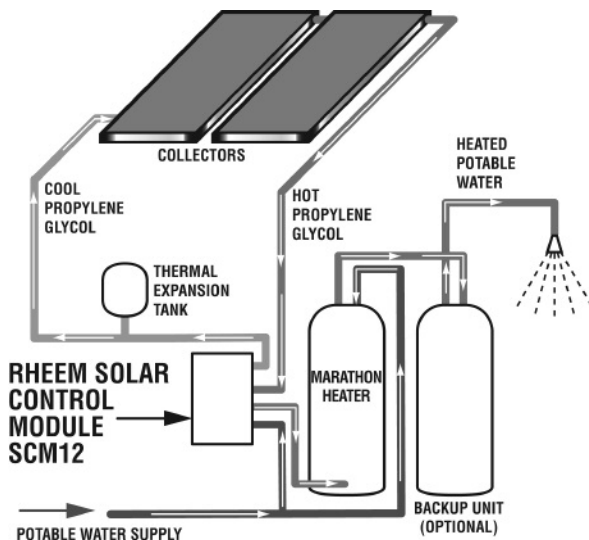

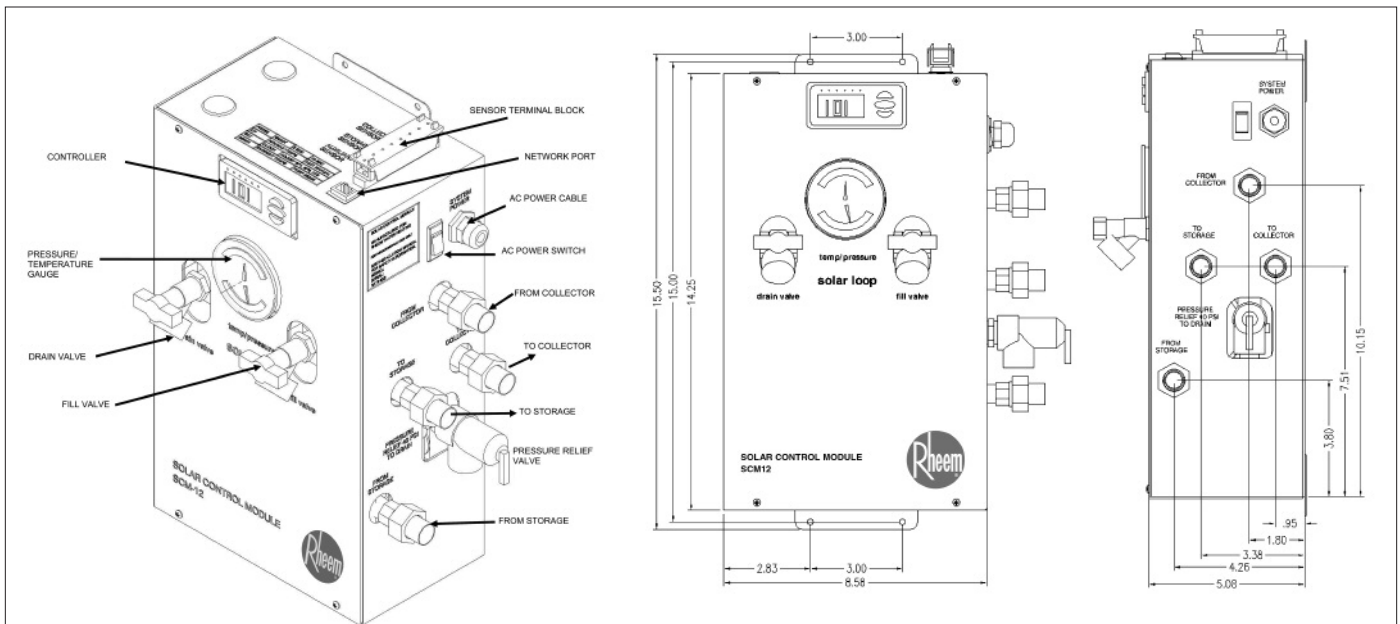

Convert your Rheem Marathon® water heater into a high-efficient solar water heating system with our SOLAR CONTROL MODULE

► 2-Year Limited Warranty*

- Solar Control Module combines the pump, digital controller and heat exchanger into one, easy to install package!
- Complete interface between solar collectors and Marathon tank – just add expansion tank and copper tubing
- Designed to improve the energy efficiency of an existing Marathon water heating system
- It's lightweight, easy to install – just like the Marathon
- Clear and easy to read LED showing system operation or faults
- Programmable controller for flexible operation and precise temperature control
- Super-quiet system operation
- Optional connection to PC for performance monitoring
- Optional heat dump system for temperature control to maintain peak performance

* See Warranty Information Brochure for complete details.
